

Nor+ FLEX ACCESSORIES

NorthAmCon offers a variety of options and accessories to support the Nor+ Flex conveyor products. These options and accessories assist in the safe movement, storage, and operation for both the equipment and worker.

Nor+ FLEX ASSIST

The Nor+ Flex Assist is an economical option to ease the movement of Nor+ Flex conveyors in and out of trailers, reposition for convenient access or return to a storage location.

Features:

- Integrates with Nor+ Powered Flex or Nor+ Flex Conveyors
- Can Be Used to Position Multiple Flex Conveyors
- Available Bed Widths: 24", 30" & 36"
- Simple Forward/Reverse Controls
- Durable Construction
- Utilizes a Single Point of Contact to Maximize Maneuverability of the Conveyor

IMPACT CART

Protect your Nor+ Flex conveyor with an impact cart at the infeed end. Heavy boxes dropped repeatedly on the conveyor can damage rollers, sensors and drive components. The Impact Cart is ideal for package loading and moves packages along to the flex conveyor with a gentle push.

Features:

- Welded Construction and 2 1/2" Diameter Rollers to Resist Damage from Impact Loading
- Bolted Connection for Semi-Permanent Installation or Hook Connection for Rapid Attach/Detach

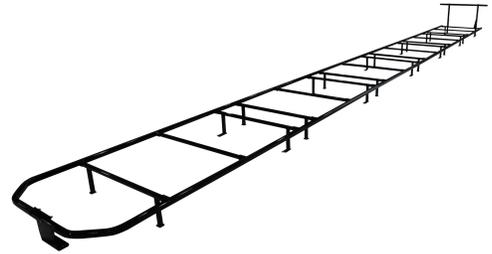

FLOOR GUIDE

Move the Nor+ Flex conveyor in and out of storage with ease using the Floor Guide.

Features:

- Welded Tube Construction and Modular Installation
- Formed, Rounded Nose (Front) for Easy Return
- Reinforced Back Stop

TRANSITION

Transitions assist flow from the feed line to the Nor+ Flex conveyor. The Centering Transition aligns packages toward the center of the flex conveyor.

Features:

- Reduces Impact During Transition from Feed Conveyors to the Nor+ Flex Conveyor
- Pivoting Cleat Section to Enhance Final Transition
- The Centering Configuration Directs Products Toward the Middle of the Conveying Lane
- Bolt-On, Formed Angle Sideguides Available

SIDE GUIDES

Flexible Side Guides prevent packages from falling off the edges of select models of Nor+ Powered Flex Conveyor.

Features:

- Curves, Flexes, Expands and Contracts with Nor+ Flex Conveyor
- Durable, UHMW Material
- 4" Overall Height, Extends 3" Above and 1" Below the Top of Roller
- Mounts Utilizing Existing Handle Locations
